Dear Governor Roy Cooper,

As a citizen of North Carolina I am writing to you to ask you and state agencies to deny any permits for the Atlantic Coast Pipeline. Fracking is a terrible destructive process that ruins landscapes and water, and the chemicals used in the extraction of natural gas are dangerous. We can't risk the health of the beauty of North Carolina on such a short-sighted energy solution. We need to turn our focus to renewable solutions not non-renewable ones like fracking.

Sincerely,  
Julie Thomson
